AFOL

Lanzarote Association
of Oncohaematological Families
C.I.F. G-35697499

Cancer is a serious disease, which is still the second leading cause of death in our world.

We live in a somewhat fast-paced society, where the saturation of functions and the shortage of time can seriously deteriorate human relationships. This becomes evident, without a doubt, at times when the person most needs this information, communication and support; for example, when he or she is ill. If, in addition, a word like CANCER is pronounced, the desire to know, to talk and to share becomes more acute.

Since 2001, AFOL has been working to improve the quality of life of children, adolescents and adults with cancer.

Our aim is to provide the families of cancer patients with the psychological, social, educational and economic support necessary to care for the patient in the best possible conditions, both during hospitalisation and at home.

AFOL, is a n o n - p r o f i t association, with about 190 members, which aims to improve the quality of life of cancer patients in Lanzarote and their families. The members of AFOL are not subject to the payment of fixed fees, so the financial support comes mainly from donations from individuals and companies.

If you wish to collaborate with AFOL, you can do so through the following account:
